ALBERTA GOVERNMENT SIXTH CROP REPORT

—o—

Seventy-five to eighty per cent. of the wheat crop throughout the province is in hand and all grain crops continue to make rapid growth, according to telegraphic reports received by the Department of Agriculture on Friday for the sixth fortnightly crop report of the season.

Practically all sections of the province have benefited from intermittent showers during the vast two weeks and moisture conditions are generally reported as highly satisfactory. Only in very few districts have low lying lands suffered from the rainfall which has been well in excess of the average for July. Hot, dry weather would be beneficial now in some sections where early-sown wheat is approaching the tilling stage. Oats and barley are making vigorous growth and these crops on early land are starting to head.

Conditions continue ideal for breaking, and particularly through the central and northern sections of the province, large areas of new land are being cleared and brought under cultivation in readiness for next year's crop. In some localities summerfallowing has been hampered to some extent by the excessive moisture in the soil, and the same difficulty is reported in connection with the cultivation of the beet crop in the south.

Haying is well advanced in southern sections. A good crop of alfalfa and other cultivated hays is being cut and continued dry weather is essential to ensure proper curing.

Some hail damage to crop is reported but this is confined to very limited areas. Crops this season have been particularly free from insect and disease injury.

A PIONEER BISHOP'S DEATH

—o—

Last week Right Reverend Cyprian Pinkham died at his home in Calgary, at the advanced age of eighty three years. He was active in his diocesan work until a short time ago, when he retired and was succeeded by Rev. Ralph Sherman.

The late Bishop Pinkham was very closely identified with the development in Western Canada, and was very much beloved by the people of his own church, and respected by the members of other churches.

A pioneer figure in the Canadian west, Rt. Rev. William Cyprian Pinkham, until the end of 1926 Anglican bishop of Calgary, probably witnessed as great a transformation in is chosen field of labor as any man of his time. Reaching the prairies almost before they had felt the impress of civilization, he was destined to spend his life largely in missionary districts.

He was born in St. John's, Newfoundland in 1844. But when the future bishop was quite young, his father returned to England and took up his abode in Teignmouth, Devon. Dr. Pinkham attended St. Augustine's college, Canterbury, graduating in 1866 He was ordained deacon and came to the Red River settlement the same year. He entered priest's orders the following year.

His first charge in Canada was St. James, Manitoba, where he was incumbent for 13 years from 1868 to 1881. In 1881 he was appointed archdeacon and canon of St. John's cathedral, Winnipeg. Six years later he was elevated to the episcopate, being elected bishop of Saskatchewan.

Owing to the rearrangement of the western dioceses he was bishop of Saskatchewan from 1887 to 1902, and bishop of Calgary from 1888 up to the time of his retirement at the end of 1926, on account of failing health. He was also bishop of Edmonton, 1912 to 1914.

Bishop Pinkham's diocese extended on the north to the Arctic circle and Hudson Bay. In order to reach one of his missions on the coast of the bay it was necessary for him to travel the whole way round by the St. Lawrence and up around the coast of Labrador.

He attained the honor of being appointed an Indian chief and one of his photographs shows him in the full costume of this interesting office.

Bishop Pinkham, married Jean Ann Drayer of Winnipeg in 1868. They had four sons and four daughters of whom two sons and three daughters are living.

THE CARSELAND TEACHING STAFF

—o—

The teaching staff for Carseland School for the ensuing term has been completed. Mr. Charles Douglas continues his contract. Mr. Fred A. Rutherford, of Calgary, comes with a first-class certificate and one year's experience, and will teach grades VII and VIII.

Miss Lena Dick, well and favorably known, will have grades IV, V, and VI.

Miss Grace Baker, of Calgary, after two years experience at Cochrane, will conduct the primary work.

The new teachers will be cordially welcomed, each having splendid records for their ability.

VISITING EDITORS ENTERTAINED AT SUPPLY FARM

—o—

Strathmore was visited recently by Lord and Lady Willingdon as guests at the Strathmore Supply Farm, and so successful was the visit that Geo. H. Jones, to prove that he is a real democrat, stepped from the ranks of royalty to invite the visiting Danish and Norwegian newspaper men of Minnesota, who have been making a tour of Western Canada, Mayor Fred Osborne, of Calgary, and Mr. Ward Jones, the new manager of the Canadian Pacific Natural Resources, accompanied the visiting publishers.

Arrangements had been made for a garden party, but Mr. Weather Man unfortunately interfered, hence the luncheon provided by the Ladies Aid of the United Church was served in the home of Mr. Jones.

Mayor Osborne gave one of his usual bright and pithy addresses, which was followed by Mr. Geo. H. Jones, in which he very fully outlined the splendid work that is being done at the Farm, the extent of which was a surprise even to the local people present. Mr. Jones was particularly pleased to present the outstanding benefits to Alberta and Western Canada as a whole, through the development of Canada's largest Holstein herd, and the great help it has been to other stockmen, through their annual sales.

Governor Theodore Christiansen, of Minnesota, replied for the visiting editors, stressing his pleasure in being able to visit Canada, where so many of his own people are making their homes and joining with the Canadians in the making of Western Canada. He expressed his sincere thanks for the reception in Strathmore, and not only in Strathmore, but in each Canadian town they had been given the warmest welcome, and that each and every representative would be only too happy in telling in their respective journals what they have learned about Western Canada.

Mayor Shrimpton, and Thos. E. Wright, president of the Board of Trade, were present helping to make the visitors feel at home. The party returned by autos, and left by train to visit Southern Alberta.

THE SUDDEN DEATH OF FRANK LOGAN

—o—

The funeral of the late Frank W. Logan, who died July 19th, was held at the Strathmore Union Church on Tuesday, July 24th, at 2 p.m. and was conducted by the Rev. Mr. Wilkinson.

Mr. Logan was born at Unionvill, Iowa, and came to Strathmore together with Mr. B. F. Imlay in 1908, and located on land which later they sold, and is now occupied by the C.P.R.D. headquarters. Since then he has resided in the Nightingale and Balntree district. Mr. Logan has been in failing health for the past four years, but his death came as a great shock as he attended the Strathmore Stampede on the 18th, going home about 8 p.m., and soon became so ill that he summoned a neighbour, and Dr. Giffen was called, but death took place before the doctor arrived.

Interment took place in Burnsland Cemetery at Calgary, following the services here.

He leaves to mourn his loss two brothers, William and John, residing at Fort Morgan, Colorado; three neices, Mrs. Dodsen and Mrs. Norton, of Denver, and Mary Louise Logan, of Fort Morgan; one nephew, Howard Logan, of Balntree.

The honorary pallbearers are, Mr. B. F. Imlay and Mr. A. Johnson. The bearers were C. County, H. S. Dougan, Carl A. Brown, C. V. Chapman, T. E. Wright and Henry Diffendaffer.

Among the floral contributions, were those from the following: Bill, John, Audrey, Alice and Howard, Miss Lamburne, Mr. and Mrs. B. F. Imlay and family, Howard, Mr. and Mrs. John Molennis, Mr. and Mrs. P. V. Lyons, Mr. and Mrs. C. H. Olson, Mr. and Mrs. W. C. Lyons, Baintree U.F.W.A., C. M. Wise of Rockyford, Mr. and Mrs. W. A. Brown and Mr. and Mrs. C. V. Chapman, Audrey L. Dobson of Denver Col., Mr. and Mrs. Dougan and Mr. and Mrs. Bannerman, Baintree, U.F.A., Mr. and Mrs. County, Mr. and Mrs. T. E. BOW RIVER CONVENTION HELD IN MEMORIAL HALL

—o—

E. J. GARLAND
Federal Member for Bow River

—o—

The Bow River Convention has been in session on Tuesday and Wednesday with delegates present from every part of the Dominion riding.

On Tuesday Mayor Shrimpton cordially welcomed the delegates to Strathmore.

E. J. Garland, M.P., was present to give an account of work at Ottawa, and to receive the views of the local delegates.

Mr. Garland gave a very full explanation of the application made by the Sun Life Assurance Co. for power to increase its capital at the last session, and the fight that had been put up by the U.F.A. group of Alberta at Ottawa, with the result that the matter was held up for another session. Mr. Garland hoped that the Alberta members would be supported by a strong resolution against the Sun Life proposition.

The past session, Mr. Garland said, was an exceedingly dull one in the House of Commons, it absolutely lacked pep.

The speech from the throne was most commonplace.

He outlined the advantages of the closer trade relations with the Orient, which he predicted would be of inestimable value to Canada, especially Western Canada, in the years to come, and would show an immense expansion from year to year, and prove of inestimable benefit to the farmers of Western Canada as soon as China secures stable government.

He heartily endorsed the change of site to Fort Churchill as the terminal of the Hudson Bay Railway, which had been done upon the advice of an engineer with a world-wide experience and reputation. He had urged the establishing of a research bureau, and was very pleased to say the government had made an appropriation of $750,000 as a beginning. Germany, Japan and the United States were far ahead in this very important work. He cited the necessity for the keenest research in the matter of rust in grain, which had caused a loss of $100,000,000 annually. Was it not worth while to try and learn how to avoid or combat this evil.

He scored the King Government for their inactivity, which might be accounted for by the fact of its absolute security; but he strongly contended that an unstable government often gave the best results to the people as a whole. Politicians seldom initiate suggestions come from organized groups. The U.F.A. group has an ideal which they have faithfully endeavored to live up to, viz—the best for all, each for all, and, said the speaker, don't blame governments for doing nothing, but in the future bring your influence to bear upon them through your organization.

Mr. Garland surely scored the efforts of the King Government to get back to the old patronage system of political appointments, and away from the control of the Civil Service commission. One branch of the service wishing to establish an examining board of their own; the eligible candidates of which to be passed on to the Civil Service commission.

In the matter of Research work, he emphasized the work of Japan, who sent out two hundred students to all parts of the world to study improved industrial work.

The matter of letting go of the control of our electrical power was strongly urged against, as the life of each industry was at stake.

In the matter of immigration, he explained that only British imigrants were given any assisted passage, and read the report of the Canadian Legion of Saskatchewan, showing the proportion of British and Canadian born was being fully maintained.

The Farm Loan Board will come into force as soon as an agreement between the Provincial and Federal governments has been made. A system of inter-credits is sadly needed to assist the farmer in many of the necessary projects.

He touched lightly on the Athabasca election scandal, and hoped that the necessary legislation would be forthcoming to eliminate the professional election worker.

The effort to get through a bill to provide a toll bridge at Niagara was explained. He fully explained the attempt of the Bell Telephone Co. to railroad the bill through to secure authorization to issue an additional $75,000,000 stock at par, but which they refused when it was stipulated that it be sold on the open market, and not as a motion to old shareholders to the extent of $67.50 per share.

He heartily congratulated the Toronto Globe for the splendid campaign which that "old lady" had conducted against the efforts of the Telephone Company.

The recent suggestion made by Sir Henry Thornton that he had a new scheme for financing the Canadian National Railway, had been sprung rather as a surprise, and he urged everyone to be on the alert, that this should turn out to be a plan to place the Canadian National Railway, which has recently been doing so well, in the hands of private control.

In closing his splendid address, Mr. Garland urged upon the delegates present the necessity and advisability of perfecting their organization, and building up their membership. The U.F.A. group in the house needed this support, and the central office needed the financial help.

In referring to the Natural Resources agreement that the Alberta group had been unable to do anything until such time as the provincial government had ceased to negotiate with the federal government.

Mr. Garland was given a splendid reception when he began speaking, and the heartiest applause, when he had concluded.

V. BOOHER HAS CONFESSED

—o—

EDMONTON, July 24—Convinced of the hopelessness of his position as the A.P.P. continued to pile up circumstantial evidence pointing him out as the perpetrator of the Manville murders on July 9, Vernon Booher made a full confession of the crime to Detective Sergeant Leslie on Sunday afternoon, according to information given out at an A.P.P. hearing on Tuesday.

"MEN'S BETTER WEAR"

PLAYING CRICKET

—o—

It's doing your job the best you can,
And being just to your fellow-man;
It's making money, but holding friends
And staying true to your aims and ends;
It's figuring how, and learning why,
And looking forward, and thinking high,
And dreaming little, and doing much;
It's keeping always in closest touch
With what is finest in word and deed;
It's being thorough, yet making speed;
It's daring blithly the field of chance,
While making labor a brave romance;
It's going forward despite defeat
And standing firmly with steady feet;
It's being honest, and playing fair;
It's laughing lightly at Grim Despair;
It's looking up at the stars above
And drinking deeply of life and love;
It's struggling on with the will to win,
But taking loss with a cheerful grin;
It's learning to golf and keep your reason
When your partner shoots "birdies" out of season;
It's curling the rock when the ice is rough
And the skipkeepsashouting "not fast enough!"
It's sharing sorrow, and work, and mirth,
And making better this good old earth;
It's applying the Britisher's code of sport
Where the loser wins by a kind retort;
It's driving onward through plain and thicket,
It's doing your noblest—that's playing Cricket.

GRATTAN BARS WINS $15,000

—o—

KALAMAZOO, Mich.—Grattan Bars, fleet bay pacer owned by Fred Throwe, of Kerwood, Ont., and masterfully driven by the veteran Vic Fleming, a former resident of Calgary, won the $25,000 American Derby.

In winning the feature event of the grand circuit program, the son of Grattan Royal lowered the record for the race. He took the first heat in 2:00 3-4 and came back to win the second in 1:59 1-2. The old mark was 2:02 1-4.

Winnipeg was second, Highland Scott third, and Berry the Great fourth. Winnipeg won the third heat to take second money from Highland Scott. The time of the third heat was 2:02 1-2.

Third Classic Win

Grattan Bars in winning the classic brought to three the number of $25,000 purses he has won thus far this season. The Canadian stallion won the recent pacing derby at Stamford, Conn., and the $25,000 stake pace at Toledo last week.

In the first heat, as the field swept into the stretch, Highland Scott was holding the lead but Grattan Bars found an opening and pacing like a well-oiled machine, swept through to victory in 2:00 3-4, setting the new mark. The previous mark of 2:02 1-4 was made by Margaret Spangler in 1924 and was equalled by Hollyrood Walter in 1926.

Breaks Own Mark

The flashy Canadian horse came in the second heat to upset his own record, pacing the mile in 1:59 1-2 and thereby equalling his sensational mile at Toledo. The half was paced in 1:00 1-4 and the last half in 59 1-4 seconds. The flying Grattan Bars won $15,000; Winnipeg $4,000; Highland Scott, $2,000; Berry the Great, $1,500; Jean Grattan, $1,250; Patchen Boy, $750.

"WISE MONEY" NOW OFFERED NO KAYO IN HEENEY BOUT

—o—

NEW YORK—Wagering on the Tunney-Heeney fight, scheduled for July 26th, has taken a surprising turn. There is little money showing on the result—it is practically conceded the champion will be the winner. Odds of 2 to 1 have been offered with few takers and they may go as high as 5 to 1 on the day of the bout that Tunney is the winner.

There is considerable money circulating, however, that both men will be on their feet at the conclusion of the fifteenth round and there are odds of 2 to 1 being offered that there will be no knockout.

The impression has gone forth that it will be arranged that neither man will take the count, but it is more than probable that the wise money is going this way because of the well-known inability of either fighter to administer a knock-out punch, unless it happens to be a lucky blow.

Heeney has no reputation as a hitter. His handlers are working now in an attempt to make him deliver straight blows rather han roundhouse swings and overhand raps—with not much hope that it will improve his chances against Tunney, but in order to make him look better against the champion. With his usual system of fighting, his efforts would appear so amateurish and clumsy that those who coughed up $40 per for a seat would be certain to start booing early.

Tunney knows how to hit but he does not have any force behind his blows. He boxes scientifically, depending upon the number and cumulative effect of his blows to win for him, rather than trying for a decisive ending with one mighty punch. It is the kind of a fight he always has fought, and there is no reason to believe that he will change it.

Neither New York nor the rest of the country is getting steamed up over the fight, despite some heroic ballyhooing. There is no heavy demand for tickets, and if the house goes beyond $1,000,000 Rickard can count himself lucky.

28-YEAR-OLD HORSE RETURNS TO TRACK

—o—

ILLIOPOLIS, Ill.—Said to be the oldest race horse in the middle west if not in the United States, Dr. Kelly, favorite of central Illinois turf followers for a quarter of a century, returned to the track on July 4 after a six years' rest. He was sired 28 years ago by Dr. Kelly, another with an equally illustrious record. To prove that there is yet considerable speed in the veteran, his owner allowed him to compete in a race that was part of a July 4 celebration here.

COLTS WORTH TWO MILLIONS

—o—

SARATOGA, N. Y.—Yearlings destined for the August sales here are arriving from the great thoroughbred nurseries of Virginia, Kentucky, New Jersey, and other sections of the country. It is predicted that upward of 700 yearlings will be sold and that the total sales will hit the $2,000,000 mark. Nearly 600 yearlings were disposed of last season, and the sales totalled $1,808,035.

The vendue opens Friday, August 3.

JOHN, WITH $25,000 IN $100 BILLS BUNDLED ON LAP, CROSSES NEW YORK TO PAY FOR FARM

—o—

NEW YORK—John Biessotti got into the subway in the Bronx, found himself a seat and idly read the advertisements or such of them as he could understand. Across his knees there was a package, about so long and so wide, wrapped in brown paper. It might have been a package of food; it might have been a package of shoes going to the shoemaker's to be half-soled and heeled. It might have been any number of other things.

John rode the length of Manhattan Island with crowds surging in and out. When he reached Wall Street he got out and went to the office of the Title Guarantee and Trust Company where he had an appointment to meet George W. Levy, real estate broker.

"Here I am," said John. "I buy the farm today."

John began to unwrap the bundle that looked like a package of lunch or shoes. Mr. Levy's eyes widened as he saw package after package of $100 bills piled side by side. There were 250 of them in all.

"I'm sorry I got such small bills," said John. "I don't like to make you so much trouble, but I couldn't get no bigger."

"And you brought all that money down in a bundle in the subway!" exclaimed Mr. Levy.

"Sure," said John Biessoti. "It's my money. I save it myself, all this time. Why should I not take it where I want?"

John paid over the $25,000 as the purchase price of the farm—a little 160-acre place in Chelsea, a suburb of Beacon, on the Hudson River. It never occurred to him to pay part cash and place a mortgage on the property. The transfer was made out and deed ready for delivery. Just then John discovered that he had not brought money enough to pay for the charges of the title company and transfer fees. He was visibly disturbed and apologized profusely.

"But then perhaps this will do," said John as he dug into the recesses of an inside coat pocket and produced three $100 Liberty bonds.

John Biessotti rode back in the subway and this time he had the deed for the farm in his pocket. He continued to read the advertisements or such of them as he could understand.

H. R. H. PLANS PILGRIMAGE

—o—

LONDON—The Prince of Wales will take part in the pilgrimage of the British Legion to France and Flanders in August. The Prince will make his headquarters at Lille, and, among other distinguished visitors staying there will be Marshal Foch, Marshal Petain, General Gourand, General Waygand, Admiral Jellicoe, President of the British Legion, Countess Haig and her son.

Altogether there will be 11,000 pilgrims from the British Isles and the Dominions. Ceremonies of homage to the dead will mark the official opening of the pilgrimage on the 14th anniversary of Britain's entry into the war, and the 20 parties to leave England during Sunday, August 5, will proceed to towns and cites in France and Belgium, mostly on the Somme battlefield.

A great concentration memorial service and parade will be held on August 8 at Ypres, and it will not be possible to accommodate anyone in the town on that day with the exception of the inhabitants and the pilgrims, and no one will be admitted without his press pass of he British Legion. The scene of the concentration will be the Menin Gate Memorial, where the Prince of Wales will lay a wreath after the service and all of the pilgrims will march past his Royal Highness, later commencing their return journey.

The Store of Personal Service. **Strathmore, Alberta**

I Saw Last Week

A LADY who thought she had lost a $10 bill, made happy when Archie Gray, of the Royal Bank staff, discovered it lodged away quite safely in her bank passbook. GEO. H. JONES looking mighty well pleased with himself as he related to the visiting ediditors, just what the C.P.R. farm is producing, and what the largest Holstein herd in Canada means to Strathmore and the Province of Alberta in general. ALEX GRAY SR, Alex Gray Jr. "Pinty" Gray, Cecil Lambert, Jim Moran and Gene Giroux's No. 12 boots returning from a fishing trip, each claiming ownership in the one six-inch trout. ERNIE WHITESIDE up bright and early on Thursday morning, after his arduous day's work at the stampede; who says golfing and gardening are not the real stuff. DR. J. W. GIFFEN making a fast getaway for his vacation before some more patient's captured him. DICK BAILEY instructing Effinous Peffinous Foster into the mysteries of gold mining in the Yukon, and how far you have to go to get down to bedrock. HERBIE Ellis seriously discussing the high cost of living, which might easily run a man into bankruptcy. GEORGE H. JONES brushing up his Norwegian, Swedish, Danish and Belgian vocabulory before the editors arrived on Friday. "BILL" FREEMAN sadly surprised when the B. C. election returns were received; "what do I care," said Bill, "we have 1500 of the finest young turkeys in Canada, and that's a point for them all to shoot at." "TED" SCHULTH urging the staff to be considerate of George Quirin during the next few days. "He needs the support and encouragement of everyone of you fellows," said Ted, as he moved away to go and get his family gathered together to see Lon Chaney at Hirtle's Theatre in "Laugh, Clown, Laugh". PERCY PARISH giving Jim Moran a heart-to-heart talk on Third Street, that would melt a heart of stone. FRED J. DUNN still as pessimistic as ever over the future of stampedes. HECTOR McGREGOR trying to figure out how he can get his vacation so that he may get to Banff when the Highlanders gather at that resort. THE BOXING FANS wonder when Jim Gunn is going to provide them with a REAL boxing entertainment. "PAT", the Stampede Minister of Finance, doing some heavy thinking before presenting his financial statement. RONALD BROWN of Calgary, protesting to Teddy Schulte in no uncertain manner when the Standard was published, and his name appeared as "Harry". I don't care what else they call me, said Ronald, so long as it is not Harry or Algie or Bob—one Bob is enough in any one family. CHARLIE CHASE advising some of his friends as a matter of safety to shut their eyes on Sunday night, but that he would take a chance with one eye, and he sure did. RAY MELVIN settling down to the many household duties of a married man.

PLUNGE TO DEATH FROM ALPINE PEAK IS SEEN BY FRIENDS

—o—

PARIS—While attempting to scale a dangerous peak of the Breitborn by following a route only once successfully covered—20 years ago, by an English climber named Young—four French amateur Alpinists plunged 1,800 feet to death over a precipice, while friends and relatives watched them through telescopes from the Gornegrat.

For three hours the four had been struggling to advance against impossible conditions along a ridge almost at the summit, when the leading climber, in a desperate effort, lost his foothold and dropped into an abyss dragging two of his companions with him. The rope evidently broke, as the fourth man managed to cling to the side of the precipice for nearly a minute before he, too, dropped 600 metres to a glacier below.

The bodies of the four men, dreadfully mangled, were recovered only after the daring efforts of more than 30 guides, who went out from Zermatt when news of the disaster was received. The four dead men were all from Paris and all young engineers and scientists.

Mme Lebecque, wife of one of the climbers, with M. Andre Langlois, father of another, and Mlle Simone de Vaupaonne, the latter's fiancee, had been watching the advance of the climbers through a telescope all afternoon, and their plunge was actually observed by one of the guides, who had the telescope turned upon the ridge at the time of the accident.

THE ROYAL RANCHER

—o—

A touching anecdote illustrating the broad humanity and characteristic sympathy of H.R.H. the Prince of Wales was related by Rev. R. Moffatt Gautrey of London, England, at Toronto.

The Prince was on a visit to a hospital on the brow of Richmond Hill at a time when the nurses were extremely busy. He had gone through all the wards, and then asked the matron if he had seen all the inmates.

"There are seven others whom we don't care to let you see—poor fellows—they are so badly broken up," was the reply.

"I am here in my father's name and I would see all you have," the Prince urged. He was conducted into a room where were six disabled men, and in answer to his inquiries about the seventh the matron explained this this man's arms and legs had been blown away and he had lost his eyesight and hearing. "I beg of you not to see him," she said.

"I am here in my father's name and would see every man you have," the Prince entreated, as before. On entering the room H.R.H. was for a moment nonplussed. How could he express his sympathy under the circumstances? Then suddenly, acting under the impulse of a swift intuition the Prince stooped and kissed the poor fellow's scarred brow. The veteran grasped the full significance of that Princely act.

THE TRAVELLING HEALTH CLINICS KEPT BUSY

—o—

Reports are still being received of the good work done in the section of the province which is being served at the present time by the travelling health clinics of the Department of Health.

During the week of June 25 to 30 the examining and surgical clinics visited Big Valley, Byemoor, Scollard and Rowley, and from the schools in these districts previously visited by a public health nurse a total of 240 children were presented to the clinics for examination. Out of this number 69 were operated on for the removal of tonsils and adenoids, three were given other minor surgical treatments, seven were referred to the local physician and 25 were prescribed for.

At Big Valley, of the 50 children examined, 25 were given surgical treatment, one was referred to a physician, 23 had teeth extracted and 71 were given other dental treatment.

At Byemoor 61 children were examined, 13 were operated upon, 13 were prescribed for, 30 had teeth extracted and 10 were given other dental treatment.

Seventy-three children were examined at Scollard and of these 26 had tonsils and adenoids removed, three received minor surgical treatment, six were referred to physicians, 12 were prescribed for, 22 extractions were performed and 16 received necessary dental attention.

At Rowley 56 children were examined, six were given surgical treatment, 20 had teeth extracted and 10 received other dental treatment.

GOOD PROGRESS ON NORTH RAIL EXTENSIONS

It is expected that construction work on the extensions to the E.D. & B.C. and Central Canada railway lines will be completed in time to handle the increased 1928 crop shipments out of the newly opened up districts in the north, it is announced by Hon. V. W. Smith, Minister of Railways.

Grading in the fifteen-mile extension from Whitelaw to the new end of steel at Fairview, north of the Peace River, will be completed by the end of August and laying of the steel will commence immediately thereafter. Good progress is also being made on the twenty-five-mile grade from Wembley to Hythe and it is hoped that much of this line will be completed before freeze-up.

NEW POULTRY ASSOCIATION FORMED

Special attention will be paid to the development of improved poultry flocks in the province as the result of the recent formation of the Alberta Registered and Approved Flocks Association. The new organization will devote its efforts to the promotion of approved flock work, the support of the Dominion egg-laying contest and the advancement of the interests of the poultry industry generally.

The following officials were elected by the association: President, W. J. O'Neil, Innisfail; Vice-President, L. W. Bond, Irricana; Secretary, J. H. Hare, Provincial Poultry Commissioner, Edmonton; Directors, F. Edwards, Edmonton; E. R. Nichols, Calgary; C. J. Ford, Calgary; C. W. Drayton, Pickardville; E. E. Stafford, Sheerness and D. W. Patton, Wetaskiwin.

Nels White was stepping around all pepped up on Wednesday morning upon upon learning that a carload of Chevrolet trucks would arrive this week.

The Ladies Aid of the United Church served tea to the visiting Norwegian and Danish newspapermen and their wives, at the commodious home of Supt. Geo. H. Jones Friday afternoon last. Tables were placed on the lawn, but threatening clouds rolled up and over-spread the sky, and a hurried change was made to arrange tables in the house. Nothing daunted, the guests arrived in large numbers and thoroughly enjoyed the hospitality extended. All seemed to appreciate the real significance of Mayor Osborne's words when he said that no westerner apologized for rain at this season of the year, for it augured a bountiful harvest. A most pleasant hour was spent, regret being universally expressed the time was so limited. Mrs. Moodie, 1st vice-president of the Ladies Aid, in the absence of Mrs. Jones, was convenor, and was assisted by Mesdames McDonald, Whiteside, De Witt, Gatenby, White, Bower, Sorensen, Carrett, Moore and Miss Fairley.

• • •

The Ladies Aid will meet at the home of Mrs. Geo. Jones on Thursday at 3 p.m.

WEDDING

McDONALD — HEITMAN

A very pretty wedding was solemnized in Rockyford United Church on Wednesday, at four o'clock in the afternoon, when Miss Florence Heitman, eldest daughter of Mr. and Mrs. F. J. Heitman, was united in marriage to Mr. Roy McDonald, son of Mr. and Mrs. R. McDonald of Chatham, New Brunswick.

The Church was prettily decorated for the occasion with ferns and pink and white phlox and Sweet Williams.

To the strains of Lohengrin's wedding march, played by Mrs. D. Howick as organist, the bride entered the church on the arm of her father. She was followed by two bridesmaids, Miss Evelyn Heitman, and Miss Vivian Cliffgard of Hussar; and by little Alice Heitman as flower girl, joining the groom at the altar.

The ceremony was performed by Rev. V. M. Gilbert, the bride's father giving her in marriage. Preceding the entrance of the bridal party, the anthem "Great and Wonderful are Thy Works" was sung by the choir. During the signing of the register a quartette composed by Messrs. Walrod, Cantelon, S. Roppel and G. Roppel sang "Drink To Me Only With Thine Eyes."

Mr. Walter McDonald, of Calgary, brother of the groom, acted as best man, and Messrs Fred Schafer Jr. and Winfield Schafer served as ushers.

Leaving the church to the music of Mendelssohn's march, the bridal party waited upon the steps to receive congratulations of their many friends. They then proceeded to the home of the bride's parents, where a dainty buffet luncheon was served, the invited guests being relatives and a few intimate friends.

The bride looked lovely in her dress of white georgette over white satin, made bouffant style, with full length veil of embroidered silk net. She carried a large bouquet of creamy pink roses.

Her sister, Evelyn Heitman, as maid of honor, wore pale Grecian rose canton crepe, with lace trimmed picture hat to match.

Miss Vivian Cliffgard, of Hussar, as bridesmaid, wore pale peach colored georgette with hat to match. Little Miss Heitman, sister of the bride, was dressed in pale pink crepe de chine, and carried a pretty basket of pink and white flowers.

The happy couple left that evening by motor for Calgary, Banff, and other points west. Upon their return from their honeymoon, they will be at home to their friends at Cayley, Alta., where Mr. McDonald has accepted a position for the next year as a teacher in the High School there. He is well-known in Rockyford district as teacher in the Wheatacres school for two years, teaching the past year in Bassano.

Miss Heitman is popular and well known in this district, where she has attended school and grown to young womanhood.

The many friends of Mr. and Mrs. McDonald wish them good luck and happiness together in their new home.

TUDOR

On Friday evening a farewell party was given at the home of Mr. and Mrs. A. W. Miller, in honor of Mr. and Mrs. A. W. Thorburn and family, who are moving to Gleichen, where Mr. Thorburn will take charge of the Alberta Pacific Grain Co. elevator. Eighty to ninety friends gathered to spend the evening with them, and bid them good bye. On account of a heavy rain, it was late before the crowd got together. A few games were played by the young folks, while their elders visited. A delightful lunch was served, after which Mr. and Mrs. Thorburn were presented with a set of community plate as a token of the high esteem in which they are held by the people of this district. Bert has been agent for the Alberta Pacific Grain Co. at Tudor for the past eight years, in which capacity he has made a host of friends, while he and Mrs. Thorburn have made many friends in a social way. They have been a real asset to the community, and we all join in wishing them health and prosperity in their new home.

ROSEBUD

Mr. and Mrs. A. Clark, Miss Rose Clark, Mrs. E. Gross and Mr. C. Gross spent several days in Banff and vicinity last week.

• • •

Mr. R. W. Brunner and P. Riley returned from a 5,000 mile motor trip to Kansas and Wyoming last Friday. They report fine roads in the States, but terrible ones in southern Alberta.

• • •

Mr. M. O'Farrell has returned from his holidays.

AMERICAN GOLFER SCORES AN "OWL"

—o—

OLYMPIA, Wash.—Golfers may boast of their birdies and eagles but Frank Jennings, Olympia, can go them one better. He "scored" an owl on one of the local courses, made when one of the slices picked the night bird as he sat perched in a tree to the right of the fairway. Jennings exhibited the owl in the clubhouse.

BEE SWARM DEFIES WHOLE TRAINING CAMP

—o—

PLATTSBURG, N.Y.—A swarm of bees today disputed possession of a few square feet of earth with Major Claude Dore. The bees won.

The incident occurred when Major Dore, camp information officer, wished to have his tent pitched in a particular spot. Not even discipline could force the soldiers to run the risk of arousing the huge swarm while setting up the tent.

Major Dore selected another site and sent out a call for an apiarist to remove the enemy.

ALBERTA OPERATORS WANT LONG PERIOD FOR COAL SHIPMENTS

WINNIPEG—Alberta coal operators will use their influence to procure a six month trial period beginning early next year to demonstrate the feasibility of shipping Alberta fuel for the use in the east, said George L. Brockbank, Calgary, leading coal operator, here Tuesday night. He did not believe the movement had been thoroughly tried out during the stipulated three month period which ended last Sunday due to difficulties in establishing a market in those months.

CONVENTION RADIOCAST COST $1.07 A SECOND

It cost approximately $1.07 a second to radiocast the proceedings of the Republican National Convention in Kansas City, figures made public by M. H. Aylesworth, president of the National Broadcasting Company, disclosed.

The radio bill for the convention was $77,000, and the actual proceedings lasted 20 hours, or 72,000 seconds. The entire expense, Mr. Aylesworth said, is being borne by his company and the 42 associated stations.

NOXIOUS WEEDS

Your co-operation with Provincial and Municipal authorities is solicited in the control and eradication of weeds. Keep your fields and roadsides free from these unsightly and costly pests.

Weeds reduce the yield and lower the grade of your grain, rob the soil of its fertility and cost money in dockage and transportation. Approximately 6,000 cars were required to haul the screenings from one season's crop in Western Canada to terminal markets. Will you not help to reduce this enormous loss?

Give your local weed inspector and the Provincial Field Supervisor in your district every possible support in dealing with the weed problem.

CARSELAND FARMER AND FAMILY VERY SUCCESSFUL

—o—

Among the most prosperous, well-ordered and happy communities in the Canadian West are those which have been built up by the gradual settling of whole families, and others near of kin, in one area. A good instance of this, in a Canadian Pacific district, is cited by J. N. K. Macalister, Assistant Commissioner of that railway's Department of Colonization and Development. Eighteen years ago Hans Lausen of Sleavig, Denmark, bought a half section of land near what is now the town of Carseland, Alberta, on which he put up buildings and began farming. He not only raised good grain but a good husky family of 11 children. Mr. Lausen gradually extended his holdings, and his sons, as they grew up, purchased adjoining properties, as did also the husbands of the daughters, until the whole family now farms 5,480 acres in almost a solid block. In fact, eight of the children, now grown up, possess land in the district. "There are many similar cases in Western Canada," said Mr. Macalister.

SLAMS BISHOP FOR DECRYING NEW CANADIANS

—o—

WINNIPEG—Taking Bishop Exton Lloyd of Saskatchewan severely to task, The Israelite Press, a Winnipeg Hebrew weekly organ, demands that he be dealt with by his church for recently expressed unflattering opinions on continental immigrants.

It says in part: "George Exton Lloyd hiding behind his sacred gown, calls every new Canadian a dirty, ignorant, garlic-smelling foreigner, and feels safe, protested, because he speaks for the church whose gown he wears, for the hierarchy, from the archbishop down, who permit him so to degrade his high office.

"If he does not speak on behalf and with the authority of his superiors and equals, he would be openly reprimanded, disciplined and ungowned. The irresponsible George Exton Lloyd we can ignore. Bishop Lloyd's gown cannot be ignored. It either must be borne with dignity or not at all."

A THOUGHT FOR TODAY

—o—

There is no duty we so much underrate as the duty of being happy. By being happy we sow anonymous benefits upon the world, which remain unknown even to ourselves.—Stevenson

—o—

MEAL PROVIDED BUT NOT THE COOK

There are many people who, either from laziness or stupidity, take literally the words, "The Lord will provide" and, consequently, suffer sad and frequent disappointments. It is very true that the Lord provides. He is the Universal Provider. But He provides according to laws which operate to carry out His will and with which we must co-operate. There is an old saying that bears on the matter: "God provides the meal but does not cook the dinner". It holds true.

Look around you and you will see that there is an abundance of everything provided in nature for man's use and sustenance and to fit him to carry forward the great scheme of human progression. Of food, multitudinous varieties and quantities; far more than the peoples of the earth can possibly use for their food requirements (What a tragedy, under these circumstances, that many go hungry?). No matter what kind of food, animal, fish, or vegetable, the most abundant supply is there.

But fish must be caught, animals killed, crops grown and harvested. "God provides the meal but—"

It is the same with regard to all the other material that man requires with which to fashion life. Minerals, timber, power light, heat, everything in abundance, all waiting to have human energy and skill applied to them to place them fully and unreservedly at the service of mankind. What a magnificent world, and what bountiful provision. But we must do our co-operative share. Bread will not fall into our mouths by our merely opening them. Fields must be cultivated. Follows, all that is necessary and a surplus for good measure.

This little talk is intended, as a little rebuke to laziness. God helps those who help themselves. Those who will not help themselves don't deserve to get helped. They soon find their own level. But if one will simply realise that full and complete supply of all our needs is ours for the asking of God and the co-operating with him in his creative work, then everything will come our way. "God provides the meal but He does not cook the dinner".

—o—

CANADIANS ARE NOT WORKING TOWARDS ANNEXATION

In the heat of elections a lot of talk is heard about the danger of Canada becoming annexed to the United States. After elections are over, no matter which party may be victor at the polls, everything goes on as before. Canada stays within the Empire, does not send envoys extraordinary to Washington to discover the terms upon which we may be admitted to membership in "the Republic to the South of us", as the politicians say, but carries on as usual.

Hon Howard Ferguson, Premier of Ontario, has been getting himself interviewed in England and has said among other things that "most English people he has met hold the opinion that Canada is destined to absorption by the United States". Well, if that statement be true, (and we do not question Mr. Ferguson's veracity in the matter but simply what kind of company he has been keeping) there are some people in England who must think again and more correctly at that. Of course, we do not know who these English people are who have such a mistaken view of Canada's destiny, nor are we aware of the sources of information upon which they have built up their conception of this Dominion's future.

This, however, is to be said. There is virtually no "separationist" sentiment in Canada. Canadians, while admiring and respecting their American neighbours, wish to remain Canadians and not become Americans, or perhaps it should be put this way, United Statesers.

The surest guarantee against Canada ever "going American" lies in the mentality of the Canadian people. We are first of all Canadians, intensely proud of our country, devoted to it, believing in it; ready to live for it, willing to die for it, if need be. We may be miniature in population but not in conceit of ourselves. We note the amazing accomplishments of this young people which we are and, though possibly a bit cocksure, we are, neverthe less, filled with a complete awareness of our position in the world's life. We see a nation being builded and cemented here and are not willing to yield place to any in our eagerness and equipment to make our contribution to the work of the world. Yes, we are Canadians and proud of it and not at all wishful to become anything else.

—o—

STAMPEDE GROUNDS AND RACE COURSE BADLY NEEDED

The stampede held last week was one of the best ever put on, and Manager Leslie West and his efficient staff certainly earned the good will and appreciation of the patrons, as it would not be possible to produce a better class of bucking horses, nor a more tricky bunch of steers to test the ability of the riding contestants.

The financial results were not quite up to the mark, but the deficit, if any, will be arranged by those who are interested in keeping Strathmore a real centre for the Bow Valley.

The time has surely arrived when suitable grounds should be secured, as the present condition makes it almost impossible to carry on successfully from a financial standpoint.

The burdensome work of building corrals and fences each year falls upon a few loyal enthusiasts, while the matter of making collections is wished each year upon Ernie Whiteside and his staff of collectors, imposing a duty that each year is becoming more laborous and unpleasant, since many of the spectators are becoming more skillful and artful in dodging the purchasing of tags.

The solution is to secure grounds and have them fenced, permanent corrals, built, and later a grand stand erected, all of which will produce financial results that will make the carrying on a pleasure, rather than an annual nightmare, resulting in making it each year more difficult to develop enthusiasm.

The building up of an organization takes time, and President Wright should get busy and round up his band of willing supporters, and put this very much needed change across, and NOW is the time to do so, as it will require some clever financing and organising to make it a success, but it can be done.

The securing of grounds, and the building of a good half-mile track will be the means of the entry of a much faster class of horses for the races, and good races bring racing enthusiasts through the turnstile.

The people want amusement, and they expect the town where they trade to support it, hence from the most selfish standpoint, it will be good business to organise. Let's go, T. E

The Canadian Weeklies

Men and women from all the provinces are assembled in Edmonton today to attend the annual meeting of the Canadian Weekly Newspaper Association.

This is a gathering to which the people of any city would be glad to give welcome, because of the number of delegates, the wide range of publications represented, and the extent and character of the interests involved.

The weekly newspaper is one of the important institutions of Canada. Because Canada is a country where cities are few, and dailies correspondingly few, the field for the weekly paper is large, and its opportunities for serving and influencing the social, political and business conditions are in keeping.

To an extent that it is not always recognized, credit belongs to the weekly papers of Canada for the wholesome conditions which prevail in our social and political order, the obedience to law, the tolerant disposition among classes and creeds, and the progressive and prosperous trend of business affairs.

Nowhere in Canada does the weekly paper measure up better to its opportunities in these respects than in Alberta. That the annual gathering of the national association is being held here is a well-deserved tribute to the uniformly high standard that is maintained by the Alberta weeklies and to the important part they are playing in the affairs of their communities.

Not many years ago a national convention of weekly newspaper publishers would have been conspicuous mainly for the fewness of those who found it financially possible to attend. The inference from the present gathering is that the brethren of the Canadian weekly press have succeeded in separating themselves from the tradition that "the printer" was the hardest-worked and poorest-paid individual in the community. Long may they flourish, in that and all other respects.—Edmonton Bulletin

WINNIPEG FREE PRESS FOURTH CROP REPORT

—o—

WINNIPEG—Eighty-two points in Alberta show wheat about 50 per cent. headed, with a few all headed. There is not so much variation in this province. Moisture has been plentiful since the last report, except at Grand Prairie. Hail losses have been light with the exception of an area at Leduc which reports 75 per cent loss. Oats and barley are as good or better than last year's crop and are considered to be much earlier generally. Fall rye looks like a fair to good stand. Conditions at the time of wiring are generally optimistic.

"Aw," said the big one, "nothin' much. I was curling my hair, see? And the iron slipped."

The hospital withheld his name.

POPULATION BALANCE NOW IN FAVOR OF CANADA

—o—

OTTAWA—There were 4,466 Canadians who went to live in the United States in the month of May, of whom 3,803 were born in Canada, according to an official report from Washington. The continuance of this exodus is regarded by the Toronto Globe as so serious that it urges the Government to investigate the matter and see if something cannot be done to prevent the loss of population.

But a report from the Immigration Department at Ottawa shows that, during May, there were 3,833 Canadians who returned from the United States to live in their own country, and, besides, there were 3,096 people of the United States who emigrated to Canada.

The net result of the trekking across the border in the month of May, therefore, was not so bad. We were sorry to lose the 4,466, but we received 6,929, or 2,463 more than we lost.

If the loss of population to the United States during May could be taken as an average for the year, then the exodus will be substantially less than last year. And, with the number of returning Canadians and of United States people coming to live here, there is a good prospect that the balance of the trekking across the line will be turned in Canada's favor this year, and possibly to a very considerable degree.

Not only is Canada becoming better known in the United States, but employment conditions are also better here than on the other side. Here they have been steadily improving. The index number of the Labor Department for June stood at 112.4, reflecting the expansion that is going on all over Canada. In the United States the index number for employment in May was 85.5 (based on 100 as the monthly average in 1923). In May, 1927, it was 89.7 and in April last it was 85.7. The month of May, therefore, showed no improvement but a slight continuance of the decline.

If there were any specific steps that the Government could take to check the exodus from Canada, they should be taken. But what can the Government do, more than endeavor to stimulate development along all lines thus providing more employment and opportunities in Canada?

COPS ARRIVE TO TAKE LAD TO CHURCH

—o—

SAN FRANCISCO—Earl Crenlon, 11, was a free thinker. He absolutely refused to go to church. His mother threatened to call the police and went so far as to pick up the receiver and say, "Give me police headquarters." Then she hung up the receiver. But a wideawake operator had heard. She traced the call and notified headquarters. Within a few minutes a patrol wagon, a traffic cop and a half dozen beat men pulled up at the Crenlon home. Mrs. Crenlon explained the situation after recovering from the shock, and Earl went to church, accompanied by a patrolman.

REFUSES $500,000 FOR ENGLISH DERBY WINNER

LONDON—The Daily Express says that Sir Hugo Cunliffe-Owen had refused an American offer of £100,000 for his horse Felstead, winner of this year's derby. The price is £40,000 above the high price paid by Sir Harry Mallaby-Deeley when he purchased Call Boy, winner of the 1927 derby from the executors of his brother, the late Frank Curzon.

ALBERTA FUR PRODUCTION INCREASING IN VALUE

—o—

The value of Alberta's fur production for the season 1926-27 reached a total of $2,253,353, according to the report just issued by the Dominion Bureau of Statistics. The corresponding figures for the two previous seasons are as follows: 1925-26, $2,122,778, and 1924-25, $2,030,974. Of the total fur production for the Dominion of $18,833,977 in 1926-27 Alberta contributed 12 per cent., being exceeded only by Quebec and the Northwest Territories with 16 per cent. each and Ontario with 21 per cent.

"WATERHOLE" IS RENAMED "FAIRVIEW"

—o—

The town of Waterhole in the Peace River country, it is announced, will be known in future as Fairview and will occupy a site some five miles from its present location. The townsite of Fairview which has just been laid out is at the end of steel on the extension of the Central Canada Railway being constructed this season southwest of Whitelaw. The new name is said to be a happy choice as the town in its new location will command a view over a wide stretch of country across the Peace towards Spirit River.

CANADIAN HAMS FETCH GOOD PRICES ABROAD

—o—

OTTAWA—Despite the added restrictions placed by the British Preservatives of food act there is an increased demand in Great Britain for Canadian hams and bacons, particularly in Scotland, reports the Canadian Trade Commissioner at Glasgow. Canadian hams are considered the finest in quality to go into that market from abroad. The best American hams sell at 93 shillings, while the corresponding Canadian hams command 98 to 100 shillings. Continental products have overloaded the market with bacon and prices have fallen to levels apparently unremunerative to Canadian packers. The Continental prices are diminishing, however, and prices are rising.

TENDERS FOR SCHOOL HOUSE

—o—

Sealed Tenders will be received by the Board of Trustees of Namaka School District No. 1919 at the office of the Secretary-Treasurer up to noon August 7th, for the erection of a two roomed frame and stucco school building after Plan Number 63 C 601. Plans and specifications may be obtained from Secretary-Treasurer after July 28 on payment of a deposit of $5.00. Plans must be returned within 24 hours and deposit will then be refunded. A marked cheque for five per cent of the amount of tender should be enclosed as a guarantee that same is bona fide. The lowest or any tender will not necessarily be accepted.
